

# Mitchell Freeway Extension - Hester Avenue to Romeo Road

## Hester Avenue Principal Shared Path (PSP) closure: 7 September to November 2022

As part of the Mitchell Freeway Extension project, the Hester Avenue interchange is being upgraded to connect with the new freeway. A new roundabout is also being constructed on Hester Avenue to improve safety and access to and from the Nowergup Rail Depot.

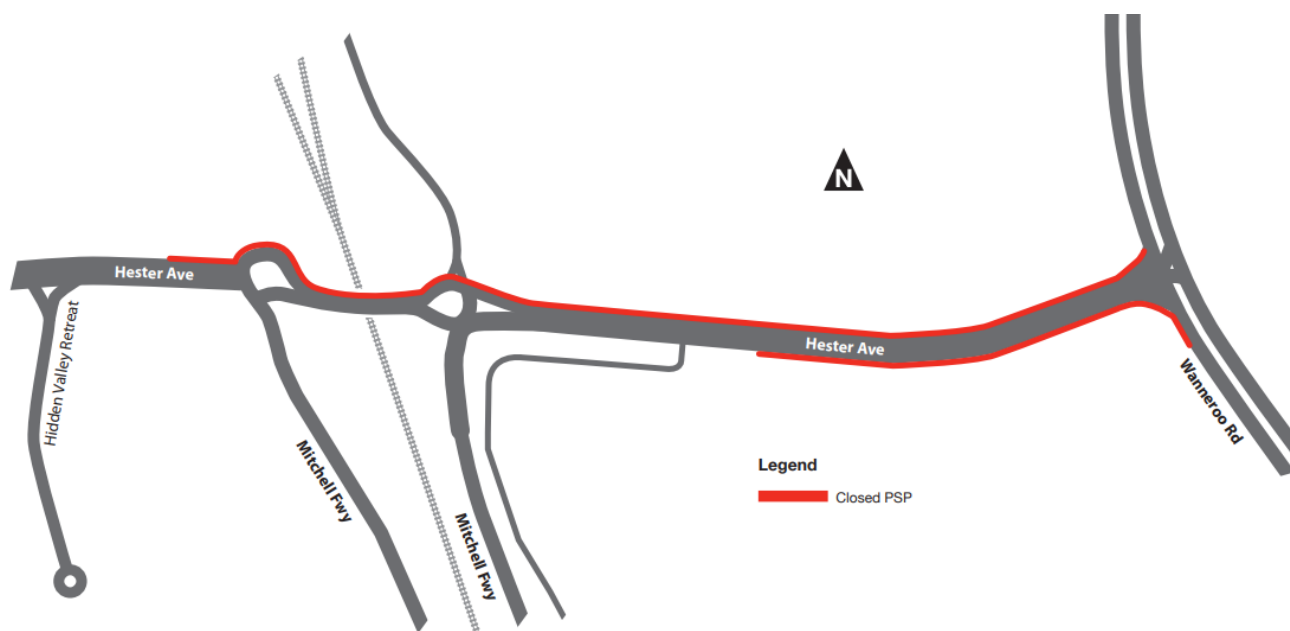

Construction of these works will require the removal of existing pavement, the installation of safety barriers, closure of traffic lanes, and earthworks on both sides of Hester Avenue.

The absence of an adjacent road network prevents the project from implementing a local road detour around the works. There is also insufficient space on the road to create a safe cycling lane. Furthermore, as no safe alternative route is available, a full closure of the Principal Shared Path is necessary.

### Principal Shared Path (PSP) closure:

- **From 7 September to November 2022**
- **Hester Avenue between Wanneroo Road and Mitchell Freeway (see map below)**
- Access closed to Hester Avenue from the Yaberoo Budjara Heritage Trail

When the works are completed, the PSP will be reopened to users. Temporary signs indicating the closure have been placed at the PSP entry points. The signs will remain in place for the duration of the works.
